CONTROL ACCESS. CONTROL COSTS.

uniFLOW Online Express is a cloud-based authentication, scanning, and accounting solution that's easy to configure and secure. The solution extends the functionality of Canon printers by adding access control, simple cloud scanning capabilities, and integrated cost tracking.

Flexible Authentication

Universal Login Manager (ULM), the authentication component, is preinstalled on the Canon device and helps secure the device against unauthorized access and usage. To gain access, users simply authenticate using PIN code, proximity card, or department ID.

Simple Scanning

Users can scan documents directly from a connected imageRUNNER ADVANCE device. The intuitive user interface plus the "Scan to Myself" and "Scan to Google Drive" workflows can help improve productivity.

Track Print, Scan, and Copy Costs

Administrators can track the organization's printing, copying, faxing, and scanning costs, helping to facilitate cost allocation to individual users. The dashboard displays an overview of the organization's print, scan, and copy environments to give detailed user and device summaries.

Cloud-based Infrastructure

Innovative cloud technology means there's no requirement for a local server. Configuration and management occur in the cloud, providing administrators with online reporting tools and dashboards.

EASY UPGRADE TO uniFLOW ONLINE

While uniFLOW Online Express provides free-of-charge, cloud-based authentication, scanning, and tracking, it can be easily upgraded to uniFLOW Online to provide additional functionalities, including secure printing, mobile printing, and enhanced scanning options.

FEATURE

Architecture	Device Standard Cloud-based	Cloud-based (Optional)
Number of Users	Unlimited	Unlimited
Access Control	✓	✓
Secure Printing	-	✓
Mobile Printing	-	✓

SYSTEM REQUIREMENTS

Version and Device Information

- Canon imageRUNNER ADVANCE + ULM V4.7 or higher
- eULM-enabled Canon imageCLASS MFP/SFP

Browser Support

- Internet Explorer® 10/11
- Microsoft® Edge 38
- Chrome™ 56
- Mozilla® Firefox® 51
- Opera™ 43

FUNCTION DETAILS

Device Authentication

- Multiple authentication options such as card log-in, PIN code, or a combination of both.
- Card log-in via MiCard Multi/HID/HITAG, MiCard PLUS/PLUS-2 V2, MiCard Magnetic Reader.▲
- Card registration on device via Card Registration Code or PIN Code.
- Customizable Log-in Screen▲

Accounting and Reporting

- Track print, copy, scan, and fax-related data from compatible Canon devices.
- Define different price profiles for individual printers.
- Available reports: user details, device details, user summary, device summary, sampling summaries.
- Access to reports can be restricted.
- Export data in CSV format.

Basic Scanning

- Scan profiles can be set up, which will follow the user from device to device.
- Supported scan destinations: Scan to Myself, Scan to Google Drive™.
- Scans can be sent in JPEG, TIFF, or PDF (image) format.
