Compact and productive colour output

The imageRUNNER ADVANCE C3300 series delivers quality colour communication in a small footprint. Easy integration, security and cost control features combined with top energy efficiency make it the perfect choice for small workgroups.

Control costs:

- Technology designed to reduce total cost of print
- Multifunctional with compact design
- User activity tracking provides visibility of print behaviour
- Apply policies and restrict usage at function level by user
- Options for cost recovery and coin vending integration
- Tight integration with output management solutions such as uniFLOW
- Device Management tools to reduce the administration burden of your fleet

Secure confidential information:

- Award-winning and smart user authentication ensures control without impacting on user productivity or convenience
- Ability to disable functions by user to prevent unauthorised usage
- Secure Print and Mailbox enhance document confidentiality
- A variety of standard features like data erase, IP and MAC address filtering and IPSec protects the device and network data transfer
- An extensive range of security options offers compliance to the highest levels covering all aspects of information security.
- Industry-first Data Loss Prevention and auditing of prints, copies, scans and faxes through uniFLOW.

Streamline document workflows:

- Unrivalled and consistent user experience through a large 17.8 cm tiltable colour touch screen and intuitive menus
- Unique personalisation capabilities simplify and automate commonly performed tasks by user
- Effortless, rapid scanning captures paper-based documents with ease
- Standard support for Searchable PDF and conversion into a range of formats including Office Open XML PPT and Word, enables re-use and re-purpose of digital content
- Integration with powerful document, capture and output management solutions provide process optimisation
- Users can create professional-looking booklets and finished documents automatically
- Convenient Staple-on-demand functionality
- Reduce waste with Staple-less Eco stapler
- Support for mobile working

Achieve stunning results:

- Robust design and engine
- Perfect for handling workloads of busy workgroups.
- V² (Vivid & Vibrant) imaging technology ensures documents impress time after time and stand out from the rest.

Manage devices efficiently:

- Supports industry and network standards i.e. PCL and Adobe PostScript for seamless integration
- Shares resources and functionality with other imageRUNNER ADVANCE devices on the network
- Collaborates with business applications and external systems in the Cloud
- Through the embedded MEAP platform the device integrates tightly with a range of powerful software solutions
- Consistent device management tools across the imageRUNNER ADVANCE platform allow easy configuration, management and upgrading of devices, whether individually, or as part of a larger fleet.
- Proactive and efficient maintenance through monitoring, reporting and diagnosis
- Low maintenance design ensures less downtime

Environmentally responsible:

- Class leading Typical Electricity Consumption (TEC*) ratings
- Consumes as little as 1W in sleep mode
- Incorporates recycled materials and bio-plastics
- ENERGY STAR® qualified.
