

# C9280 PRO C9270 PRO

# High-Volume Office and CRD Solutions

high speed, high volume color/black and white flexible in-line finishing options

# C9280 PRO / C9270 PRO

# Simply advanced.

The imageRUNNER ADVANCE C9200 PRO Series delivers high-quality color output with features that help you simplify every step of the production process to maximize productivity and improve profitability. Truly world-class solution centers for digital communications, these models are simply advanced.

# **Productive**

Amazing speed, nonstop operation, and automated features let you do so much more in so little time.

# Versatile

Accomplish a wide range of jobs with advanced paper handling, flexible finishing capabilities, and smart document publishing solutions.

# Cloud-Enabled

A simple touch of a button on the user interface lets you access, scan to, or print directly from, certain cloud applications.

# **Brilliant**

Get noticed with high-impact color or crisp blackand-white output that's beautiful, professional, and sure to impress.

# People-Centric

An exceptionally intuitive, simple-to-use interface puts access to all functions right at your fingertips, whether at the device or at your workstation.

# Mobile

Even on the go, you're in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE system.

# Impressive speed. Outstanding results.

The imageRUNNER ADVANCE C9200 PRO Series lets you quickly and easily produce professional, high-quality documents with every run. These dependable devices help you meet the most challenging demands and exceed expectations every day.

# Lots of uptime

With durable parts and a range of automated features, the imageRUNNER ADVANCE C9200 PRO systems keep your operation running.

# Continuous run

With remote notification of low supply inventory, you're always prepared. Even better, toner and paper can be replenished on the fly—no need to interrupt a job.

# Long-running reliability

You can count on virtually nonstop operation. Remote service monitoring and automated dispatching keep your system moving efficiently. Canon's E-Drum technology employs an additional coating on the drum surface to deliver high durability while maintaining exceptional image quality. This results in fewer service calls and more uptime.

# **Productive scanning flow**

A new feeder achieves greater productivity. With faster tray raise-up, documents rapidly enter and move through the scanning process.

# Robust paper handling

A paper capacity of up to 9,300 sheets (letter) helps ensure that long jobs can run without the need for paper replenishment. If the correct paper size or stock is temporarily unavailable, the system can hold that job in the queue and begin the next job without delay. And, when you're printing on three tabs from a bank of five, the other two can automatically be kicked out to a separate tray.

# Power of two processors

Get the exceptional processing speed that your work demands. Canon's Advanced imageCHIP architecture has two dedicated processors that accomplish multiple tasks simultaneously. These devices also incorporate Canon's core technology for high-speed RIP that rapidly renders high-resolution images.

# **Exceptional image quality**

These systems deliver stunning image quality with astonishing speed. Precise eight-beam red lasers produce high-quality images with proper shading and accurate registration. True 1200 x 1200 dpi print resolution produces crisp text with smooth corners, while subtle gradient transitions give images remarkable clarity.

# Advanced pQ Toner

Canon's pQ toner is oil-free and uses small particles containing micro-dispersed wax, so the toner fixes evenly and lies flat. The result is sharp and vivid images, highly accurate reproduction, appropriate gloss levels, and a smooth finish—even at the highest speeds.

# Reliable color consistency

The imageRUNNER ADVANCE C9200 PRO Series makes it easy to deliver accurate and consistent color, job after job. With Auto Gradation Adjustment, densities and halftones are adjusted to their ideal level, while Real-Time Calibration performs automatic adjustments during print runs. These models support spot color matching with PANTONE® certification, helping graphic-intensive environments achieve the highest color output quality, as well as consistent color management from creation to print.

# ZIMA chip technology

With Canon's proprietary ZIMA chip technology, image components are defined and reproduced accurately to help ensure the delivery of sharp, clear copies.

# **Precise registration**

Accurate registration is essential to achieving professional results throughout a run. Canon's cassette design allows for every page to enter the printer at the same location. Manual adjustment features offer even greater control over registration. Duplex documents achieve precise front-to-back registration within one millimeter, helping to ensure a professional result.

# An intuitive, customizable interface

Designed to provide the absolute ease you need in a high-volume operation, the interface boasts many customizable, streamlined features.

# Two menus

Press the Main Menu key to gain instant access to businessready functions. Use the Quick Menu to power productivity by combining and accessing routine tasks at the touch of a button.

# **Custom operation**

Adjust and tilt the upright control panel to your preferred position. Organize the onscreen buttons to fit the way you work by determining their number, size, and layout. Display your own logo or special graphic as a screen background—even export your chosen background to other devices.

# imageRUNNER ADVANCE C9280 PRO/C9270 PRO

# Everything you need to advance your business

# A Booklet Finisher

- · 3-tray, 4,250-sheet capacity
- 100-sheet, multiposition stapling
- Up to 110 lb. Cover, Plain, Heavy, Coated, Tabs
- · 20-sheet saddle-stitching up to 13" x 19-1/4"
- Saddle-fold up to 5 sheets without staple

### **Internal Booklet Trimmer**

• Face trim up to 80 pages (40 sheets)

### **Internal Puncher Unit**

• 2- and 3-hole punch

# B Paper Folding Unit

• Z-fold, C-fold, Half-fold, Accordion Z-fold, Double-parallel Fold

# Professional Puncher

- Includes Integration Unit
- Up to 80 lb. Cover
- Letter-sized only, Tabs
- Supports various die sets
- · Finish punched output

# **E** Single-Pass Duplex **Document Feeder**

- 300-sheet capacity
- Duplex scan speed up to 200/140 ipm (BW/Color) at 300 dpi

# F Standard Paper Capacity

- 3,400-sheet total standard paper capacity:
- -2 x 1,100-sheet paper drawers (Letter)
- -2 x 550-sheet paper cassettes (Up to 13" x 19-1/4")
- -1 x 100-sheet Stack Bypass (Up to 13" x 19-1/4")

# Document Insertion Unit

- Insert preprinted sheets
- Up to 110 lb. Cover, Plain, Heavy, Coated, Tabs
- Up to 13" x 19-1/4"
- Two trays
- 400-sheet total capacity

# **Additional Finishing Accessories**

## Staple Finisher

- · 3-tray, 4,250-sheet capacity
- 100-sheet, multiposition stapling
- Up to 110 lb. Cover, Plain, Heavy, Coated, Tabs

2- and 3-hole

Saddle-fold

Staple Finishing

Punching

Half-fold

Accordion Z-fold

# **G** Memory Media

- Scan to, or print from, USB thumb drive or memory media
- Optional multimedia reader/writer supports SD, SDHC, CompactFlash, Memory Stick, Microdrive

# **(H)** User Interface

- 10.4" TFT high-resolution touch-screen upright control panel
- Tilt-and-swivel capability
- Customizable UI screen

# Multi-Drawer Paper Deck

- 6,000-sheet capacity (20 lb. Bond)
- Three paper drawers
- 13" x 19-1/4" maximum paper size
- 14 lb. Bond to 110 lb. Cover, Plain, Heavy, Coated, Tabs

# Keyboard

- External keyboard (optional)
- Connects via USB interface

# **Additional Paper Handling Accessories**

# **POD Deck Lite**

- 3,500-sheet capacity (20 lb. Bond)
- Supports up to 13" x 19"
- 14 lb. Bond to 110 lb. Cover, Plain, Heavy

# Paper Deck Unit

- 3,500-sheet capacity (20 lb. Bond)
- Supports letter-sized paper
- 14 lb. Bond to 80 lb. Cover, Plain, Heavy

<sup>\*</sup> UFR II is standard.

# Intelligent integration. Streamlined production.

Today's fast-paced business world demands fast turnaround and exceptional quality. From time-saving connectivity solutions to tighter job control features, the Canon imageRUNNER ADVANCE C9200 PRO Series gives you the tools you need to consistently exceed expectations.

# Advanced job management

These models are designed to manage workflow with maximum efficiency. With a complete set of advanced job management features, tools, and utilities, jobs will move through your organization with impressive speed and accuracy. And with Canon's innovative MEAP® platform, you can incorporate unique applications, such as cost-recovery and document distribution solutions.

# Document publishing simplified

Manage, prepare, and monitor documents right from your workstation. With imageRUNNER ADVANCE Desktop, you can combine multiple formats, preview files, and select finishing functions, like subset stapling. The Quick Printing Tool lets you print, fax, and convert files to PDFs with drag-and-drop simplicity, without opening the native applications. Even check the status of your imageRUNNER ADVANCE system from your workstation.

For high-volume color environments, Canon's imageWARE Prepress Manager Select offers powerful production capabilities. Prepare complex documents, including various fold types, and preview them before printing. Create personalized output or manipulate documents with scanning tools like deskewing and despeckling. Even print on tabs and insert them in one step.

# Paper Handling and Finishing

# A professional finish

With an expanded range of in-line finishing options, you can configure your system to meet your business needs today and in the future. Add the ability to automatically staple in multiple positions, two - or three-hole punch, professional punch with varied punch patterns, and saddle-stitch and face-trim booklets. Even insert preprinted media to the document set as desired.

## The right paper for the job

Answer the varied needs of your customers with the ability to produce professional-looking reports, booklets, newsletters, manuals, and contracts. These systems easily handle a range of stocks in weights from 14 lb. Bond to 110 lb. Cover, and in sizes from 4" x 5-7/8" to 13" x 19-1/4".

# **Digital connectivity**

A single-pass duplex color scanner converts paper documents into high-quality digital files in multiple file formats. Universal Send supports an expanded range of file formats, including Scan to Word or PowerPoint®. Advanced PDF features include Adobe® PDF Reader Extensions, Encrypted PDF, and Searchable PDF. For outstanding speed across your network, color file sizes can be reduced with High Compression PDF/XPS.

Canon delivers advanced solutions that keep work flowing from virtually anywhere.

### **Mobile Devices**

Print from, and scan to, your laptop, iPad® or Android™ tablet, and iPhone®, Android, or Blackberry® smartphone. Access an imageRUNNER ADVANCE device to retrieve your job.

### **Cloud Portal**

Gain quick access to certain cloud-based applications right from your Canon imageRUNNER ADVANCE device. Simply log-in to access or send documents directly from the cloud.

### **Advanced Anywhere Print**

Print to a connected imageRUNNER ADVANCE system. Then conveniently and securely log-in at any supported device on the network to view and retrieve your print job with this serverless solution.

# **Robust security**

Canon's multilayered security solutions offer you peace of mind by helping to safeguard information and support security compliance. HDD Erase, a standard feature, removes latent images after each task. A security chip with tamper-resistant hardware protects passwords and encryption keys. IPsec secures data as it traverses the network.

# Choice of controllers

To meet your workflow needs, Canon offers a range of print controllers. Standard UFR II uses a proprietary printer description language to achieve high levels of print performance.

The PCL 5c/6 option uses a Canon-designed controller that achieves 1200 x 1200 dpi print resolution. Optional Adobe® PostScript® 3™ printing technology supports high-quality images and PostScript fonts.

A powerful multitasker, the imagePASS® print controller is an ideal choice for busy operations. With robust processing capabilities, it offers the tools and utilities needed to produce professional-looking documents.

The ColorPASS controller provides exceptionally fast processing and the optional Graphic Arts Feature Set provides added benefits such as color matching, halftone screening, and paper simulation.

# Integrate imaging with enterprise applications

A new middleware technology, based on Service Oriented Architecture (SOA), effortlessly links enterprise applications, such as Oracle® and SAP®, with Customer Relationship Management (CRM) systems like Salesforce.com®, ECM system, and many others. You can also connect your document-intensive processes with these applications. The streamlined workflow automates complex business processes and offers easy access to information, saving both time and money.

# Strong commitment. Eco-conscious solutions.

The imageRUNNER ADVANCE C9200 PRO Series incorporates innovative, eco-conscious solutions that keep your business operating efficiently while helping to reduce your environmental footprint.

# A responsible way to work

Canon knows that the world and the workplace need a greener workflow, and the imageRUNNER ADVANCE C9200 PRO Series, rated EPEAT® Gold, delivers just that. Now you can seamlessly share and distribute digital documents and preview files to make changes prior to printing, reducing the use of paper and toner. Print drivers are defaulted to duplex documents, encouraging two-sided printing to help reduce waste. And with Secure Print, documents are sent to a device but not printed until a password is entered, contributing to a reduction in paper waste.

# **Eco-conscious design**

Canon is making a difference through creative ecological thinking. These models employ certain components fabricated with recycled plastic from retired products. Canon's innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

# A clear strategy

# Greater energy efficiency

From the inside out, the imageRUNNER ADVANCE C9200 PRO Series is designed for high energy efficiency and stellar performance. The combination of fusing technologies and pQ toner helps lower overall energy consumption by minimizing power requirements and reducing energy use during warm-up and standby modes. With advanced technologies present in each model, the Series also meets ENERGY STAR® standards.

## Minimize environmental impact

All Canon suppliers are required to meet Canon's stringent Green Procurement policy and environmental terms. This helps the company exceed the toughest global standards set by the EU RoHS Directive, which restrict the use of certain hazardous substances.

# Reduction of CO<sub>2</sub> emissions

Through its Life Cycle Assessment (LCA) System, Canon has lowered  $CO_2$  emissions by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed with less packaging to help make transportation more efficient.
